SPRING Department of Agricultur

Wholesale Trade List

A RECORD OF 1904 1854

[COPY OF CERTIFICATE]

THE COMMONWEALTH OF PENNSYLVANIA

DEPARTMENT OF ACRICULTURE

Certificate of Inspection of Nursery Stock No. 298.

This is to certify that the stock in the nursery of Thomas Meehan & Sons, Inc., of Dreshertown County of Montgomery, State of Pennsylvania, was duly examined in compliance with the provisions of the Act of Legislature of Pennsylvania, approved the 10th day of June, A. D., 1901, and it was found to be apparently free from San Jose Scale and other dangerously injurious insect pest or pests.

This Certificate expires July 31, 1904.
Dated Harrisburg, Pa., August 11, 1903.

GEO. C. BUTZ, Inspector.

N. B. Critchfield,

Secretary of Agriculture.

Our nurseries have been carefully inspected and no trace of scale or other injurious insects found. For the benefit of customers. however, who wish stock fumigated, we have erected a fumigating house, and when requested to do so will fumigate shipments before packing.

This will be done, however, entirely at the risk of the purchaser.

THIS CATALOGUE TAKES PLACE OF ALL THE PREVIOUS ISSUES

NURSERYMEN AND TREE SEEDSMEN

-Wholesale Department-

Dreshertown, Montgomery Co., Penna.

Important! Please Read!

CUSTOMERS are requested to state the mode of conveyance by which they desire their trees forwarded. When no route is named we forward to the best of our judgment; but in no case do we assume any responsibility after the goods are shipped, unless for our own mistakes.

TERMS CASH, on or before delivery to express or railroad agents, unless by special arrangement.

TWO HUNDRED AND FIFTY, twenty-five and five will be furnished at the thousand, hundred and ten rates respectively.

PACKING CHARGED EXTRA, but only sufficient to cover cost of time and material.

Post-Office Orders payable at Dreshertown, Montgomery Co., Pa.

Telegraph Office, Ambler, Pa.

VISITORS are always welcome and should take train at the Reading Terminal, 12th and Market Streets, Philadelphia, for Camp Hill Station, or at Broad Street Station, Pennsylvania R. R., for Fort Hill Station. Be sure that the train you take stops at these stations.

NOTICE.—It is necessary that you should **Telephone** us (26 Fort Washington) in advance of your coming, so that we can send a carriage to the station for you. Our office is 2½ miles from either station.

PACKING AND STORAGE HOUSES, WHOLESALE DEPARTMENT, DRESHERTOWN, PA.

All packing is done under cover. Freight station and siding near packing house.

OFFICE OF WHOLESALE DEPARTMENT, DRESHERTOWN, P.A.

The entire building is occupied as offices. Packing and Storage Houses in the rear.

DECIDUOUS TREES.

"Trans." signifies the stock has been once or more transplanted.

"Seed." that it is still in Seedling Beds.

The 15 to 18 ft. trees are extra selected specimens, transplanted and set wide apart in rows, permitting the heads to develop into fine, shapely trees. They have perfectly straight stems, and an abundance of strong, fibrous roots. This is exceptionally fine stock for use where selected and well-developed trees are required for immediate effect.

PYRUS BACCATA. NATIVE FLOWERING APPLE.

This is the wild native apple so conspicu-

This is the wild native apple so conspicuous in spring when covered with its masses of small white flowers. They are pure white, single, and extremely fragrant. In the fall the tree is loaded with small red and yellow apples about the size of a heart cherry, and are very ornamental in their character. It is largely used in parks, cemeteries and large private grounds both as single specimens and in masses. and in masses.

PHOTINIA VILLOSA.

Few small-growing trees attract the eye as does this one. It is not only striking in its appearance in the spring when in bloom, but in the fall its foliage turns to bright crimson, red and yellow colors. After the leaves fall the masses of bright coral berries remain on the tree long into the fall and winter. It is a tree that should be largely planted. For prices see page 7.

Our stock of Azalea Mollis and Pontica is very large and fine. The plants were all transplanted last spring and will now dig with a ball. They are very bushy plants and, being well set with flower buds, they will make a very effective planting. The price indicates the bushiness of the plant as well as the height.

The Mollis are mostly in shades of red and yellow, but the Ponticas are in all colors.

**The Aralias are especially useful for massing and the character of the foliage creates a tropical effect. The large heads of yellowish-white flowers in August are quite conspicuous.

Aronia. See Pyrus arbutifolia, page 17.

Azalea amœna, Evergreen Azalea, 10 in. bushy from pots 4 00 35 00

We call especial attention to our large stock of Azalea amouna, one of the finest small-sized evergreen shrubs in cultivation. It does not transplant very freely when dug from the open ground, hence we grow ours all in pots, and when shipping them they are packed so that the ball is not broken This is a distinct advantage to the planter.

LIGUSTRUM OVALIFOLIUM (California Privet).

As usual, we have a very large stock of this valuable hedge plant. Our 1 to 2 feet 1 year plants have one, two and three stems per plant; the 2 to 2½ feet run 3 to 5 stems per plant; the sizes above these are all very bushy, and the entire stock is well rooted. Our sales of Privet increase each year. Sales last year aggregated 200,000 plants. We are recognized as headquarters for this plant.

EVERGREENS.

*All of our evergreens have been once or more transplanted. The larger sizes several times, and the choice varieties we move in a period not exceeding two years. These choice varieties are all dug with a ball of earth and the ball sewed in a mat. This makes transplanting almost an assured success. Our evergreens should not be confused with the low-priced plants frequently offered. We move them constantly in order to secure a good root growth, and they are less liable to loss when shipped.

These American and Pyramidal Arbor-Vitæ are extra fine plants, several times sheared and transplanted. They will be dug with a ball and the ball sewed in burlap, insuring success in transplanting. If customers do not care to have them with a ball, they will be supplied at 10c. per tree less than prices quoted, but this will not be done unless expressly stated in the order.

The Nursery Book A Complete Guide to the Propagation of Trees, Shrubs, Evergreens, etc. BY PROF. H. L. BAILEY

A standard work of reference simply essential to every nurseryman. Reprinted for the sixth time. It is thoroughly practical and describes fully and clearly the processes of budding, grafting, seed-sowing, etc., as well as many other important items of nursery work, with convenient indexes, etc.

The Nursery List (an alphabetical catalogue of about 1,500 plants, with directions for their multiplication), is especially valuable.

Sixth Edition, \$1 00. 365 pages. 162 Illustrations

Neponset Flower Pots

UNBREAKABLE, LIGHT, ECONOMICAL

Plants and Cuttings packed for shipment in our Neponset Flower Pots have a better protection than when wrapped in papers.

A great saving in freight is made over clay pots, weighing only one-tenth as much and no breakage. Made from the celebrated Neponset paper, which is absolutely waterproof. They are so constructed as to give ample drainage and allow plenty of air to the roots of the plant.

Send for sample and prices on seven different sizes, and compare with clay pots.

Tree and Shrub Seeds.

We issue a special catalogue of these. It will be mailed on application.

Read "The National Nurseryman,"

The Official Journal of the American Association of Nurserymen.

A monthly Trade Publication devoted exclusively to the interests of the Growers and Dealers in Nursery Stock. For ten years it has recorded the news of the Trade exclusively.

Newspapers, magazines and periodicals of many kinds come to the business man's desk, but life is short and time is money. The journal that starts right in at the first page and deals directly and exclusively to the last page with the NURSERY BUSINESS is the one that richly repays the reading

Ten years ago nurserymen were dependent upon agricultural and a few horticultural publications for an occasional mention of a nursery item of news. Now they have their own trade journal thoroughly covering the field. Information in a single issue has often proved of greater value than a year's subscription.

Subscription price, \$1.00 per year.

The National Nurseryman Publishing Company, Incorporated,

205 Cox Building, Rochester, N. Y.

These are A No. 1 in quality and are the kind in general use

Pruning Shears "F,"... \$1.00 each, 6 for \$5.75

This is a forged steel pruner, patent spring of wonderfully easy but powerful working capacity. There is not a stronger or better pruning shear on the market. It will out-wear two of any other style. The best is the cheapest in the end.

THE BEST NURSERY SPADE.

SEND YOUR ORDER NOW

We have experimented with a number of different makes of nursery spades, but find this to be the strongest, best and most durable on the market. We have been using this spade for a number of years and it will stand more hard work than any other make. It is strapped full length of handle both back and front, and half way up it has double straps, strengthening it in what otherwise would be its weakest parts. When ordering state if straight or taper blade is wanted.

Price, \$1.75 each; \$20.00 per dozen.
